

BEJOY PANKAJAKSHAN

EVP, Chief Technology and Strategy Officer

Bejoy is the Chief Technology and Strategy Officer at Mavenir. In this role, Bejoy leads and orchestrates cross-functional strategic alignment of the complete product portfolio, advises on business-critical imperatives, and engages external business and industry experts on product and technology strategies that accelerate innovation across Mavenir. He is an accomplished product and technology leader with a record of defining business vision and driving investments and acquisitions to realize long range growth.

Previously he led the Product Line Management and Solution Architecture teams at Mitel Mobile (now Mavenir) and has held multiple leadership roles with Sprint (now part of T-Mobile) and MetroPCS (now part of T-Mobile), and technical roles at BPL-US West (now part of Vodafone Idea).

Bejoy's extensive mobile and telecommunications experience includes leadership positions in Product & Technology Development, Strategic Planning, M&A transactions, Competitive Analysis, Network Engineering and Design.

Board positions include FCC Technological Advisory Counsel, Open Digital Framework Advisory Board, TM Forum; Forbes Technology Council; CX Advisory Board, University of Houston Bauer College of Business; Alliance for Telecommunications Industry Solutions (ATIS) and Baylin Technologies - Independent Director. Bejoy had led multiple industry-first innovations and led launches of world's first technologies both from the operator & vendor side. Bejoy is backed by solid credentials including AMP from Harvard, MS from SMU, MBA from KSU, CCIE and over 30 granted patents covering next generation technologies.
